PERSONAL STATEMENT

Being considered among the applications reviewed for this opportunity is, in itself, a meaningful achievement for me — the result of years spent hand-sketching, researching, and building complete design concepts from the ground up. I am eager for the chance to learn, grow my skills further, and see my ideas find their way to life through real, professional work in the field I love.

CAREER OBJECTIVE

Aspiring Textile Designer specializing in creative printing and fashion design, with a strong focus on hand-drawn motifs and concept-driven design collections for fashion houses. Experienced in working across diverse visual concepts and art movements. Seeking internship or entry-level opportunities to apply academic knowledge, creative skills, and AI-assisted design workflows in a professional textile or fashion environment.

EDUCATION

B.Sc. Textile Engineering

Badr University in Cairo (BUC) · Fourth Year · Expected Graduation: 2027

ACADEMIC PROJECTS

Surrealism-Inspired Fashion & Upholstery Collection

Academic Design Project · Badr University in Cairo

- Developed a full fashion collection and a separate upholstery collection rooted in the visual language and subconscious expression of Surrealism.
- Fashion collection: contemporary garments with modern silhouettes and cuts suitable for fashion houses.
- Upholstery collection: motifs and surface designs balancing strong artistic concept with everyday functional application.
- All motifs hand-sketched from scratch — each design expresses a distinct concept and idea.
- Published as complete digital catalogs: caroleehab.art

Ancient Civilizations-Inspired Textile Design Collection

Academic Design Project · Badr University in Cairo

- Developed textile and surface designs inspired by the visual heritage and symbolism of ancient civilizations.
- Translated historical motifs into contemporary pattern designs suitable for fashion and textile applications.
- Applied repeat pattern design techniques across Dobby, Jacquard, and Printing construction methods.

Nature & Marine-Inspired Textile Design Collection

Academic Design Project · Badr University in Cairo

- Designed textile collections inspired by natural elements — flora, fauna, marine life, and organic forms.
- Developed original hand-drawn motifs capturing the textures, patterns, and colors of the natural world.
- Applied designs across surface design and pattern repeat disciplines.

Seasonal & Festive Design Collection — Christmas & Celebration Themes

Academic Design Project · Badr University in Cairo

- Created textile and fashion designs inspired by Christmas celebrations and festive seasonal aesthetics.
- Developed motifs, patterns, and surface designs reflecting the visual language of celebration and holiday spirit.
- Produced designs adaptable for fashion, accessories, and home textile applications.

TRAINING EXPERIENCE

Textile Engineering Trainee

Lotustex (Denim/Jean Manufacturing) · 1 Week · Aug 9–13, 2026

- Completed a general training program in a denim/jeans manufacturing facility.
- Reviewed production machinery and manufacturing lines, and observed dyeing procedures used in jeans production.
- Gained broader exposure to industrial-scale garment manufacturing and dyeing workflows.

Textile Engineering Trainee

Hosny Textiles · 5 Training Days · Aug 2–6, 2026 · Completion Certificate Awarded

- Completed a practical training program in Dyeing, Finishing, and Printing.
- Gained hands-on exposure to dyeing processes, finishing techniques, and printing operations in a live production environment.
- Strengthened technical understanding of color application and fabric treatment — directly relevant to textile printing and surface design work.

Textile Engineering Trainee

Jade Textile Factory · 1 Month · Training Certificate Awarded

- Gained practical exposure to textile manufacturing, machine operation, and production workflow.
- Conducted morphological analysis of the UPC machine — components, functions, and working mechanism.
- Developed a conceptual improvement proposal for the UPC machine to enhance productivity.
- Produced a detailed illustrative factory layout identifying all main zones and production flow paths.
- Strengthened understanding of factory organization, material movement, and production sequencing.

Textile Engineering Trainee

El Gizawy Textile Factory · 2 Weeks

- Observed stages of fabric manufacturing, machine operation, and production challenges.
- Learned production organization, quality control basics, and workplace safety procedures.
- Gained practical understanding of industrial textile operations within a live production environment.

DESIGN & CREATIVE EXPERIENCE

- › Developed full concept-to-collection projects across multiple art movements and visual themes: research, mood board, motif development, color palette, and final published catalog — all under a unified artistic direction.
- › Specialized in Repeat Pattern Design as a core skill — producing original hand-drawn motifs executed across Dobby, Jacquard, and Printing construction methods.
- › Worked across diverse design concepts including Surrealism, Ancient Civilizations, Nature & Marine, and Festive/Seasonal themes — capable of delivering trend-relevant designs under any given brief.
- › All design work begins with hand-drawn sketches — fashion sketches, garment concepts, artistic boards, and motifs developed manually before digital execution.
- › Created a diverse collection of magazines, catalogs, brochures, mood boards, and visual presentation materials covering textile and fashion concepts.
- › Exhibited at EgyStetch Exhibition — received strong positive engagement from professional and academic attendees.
- › Exhibited portrait and human face artwork at faculty fine arts exhibition.
- › Awarded Department Creative Certificate for excellence in hand-drawn artistic boards.

› Received appreciation certificates for organizing and contributing to multiple departmental events.

COMPETITIONS & ACHIEVEMENTS

3rd Place · University-Wide Arts Competition — Certificate Awarded

Exhibited · EgyStetch Exhibition — strong audience and jury engagement

Participant · Nowar Drawing Competition — 2 artworks submitted — Certificate Awarded

Exhibited · Faculty Portrait & Human Face Art Exhibition

Award · Department Creative Certificate — hand-drawn artistic boards

Certificates · Multiple appreciation certificates for departmental event organization

Certificate · Jade Textile Factory — Training Completion Certificate

Certificate · Hosny Textiles — Dyeing, Finishing & Printing Training Completion Certificate

TECHNICAL SKILLS

Design Software: Adobe Photoshop · Adobe Illustrator · Canva · Autodesk 3ds Max

Textile Software: Net Graphic · EasyWeave Maker

AI Tools: ChatGPT · Claude · Gemini · Sora · AI Image & Video Generation

Office: Microsoft Word · Microsoft PowerPoint

Textile & Fashion: Repeat Pattern Design · Dobby Design · Jacquard Design · Printing Design · Fabric Structure · Surface Design · Motif Development · Upholstery Design · Fashion Concept Design · Mood Board Creation · Color Palette Development · Fashion Illustration · Dyeing & Finishing · Garment Manufacturing Processes

Hand & Manual: Hand-Drawn Motif Creation · Fashion Sketching · Textile Sketching · Artistic Board Design · Handcraft Skills

Concept & Direction: Concept-to-Collection Development · Multi-Concept Adaptability · Art Movement Interpretation · Surrealism · Ancient Civilizations · Nature & Marine · Festive & Seasonal Themes

Industrial: Morphological Analysis · Production Flow Mapping · Factory Layout · Quality Control Basics · Process Optimization

Digital Publishing: Digital Catalog Production · FlipHTML5 · Magazine Layout · Brochure & Catalog Design

SOFT SKILLS

Creativity · Attention to Detail · Teamwork · Time Management · Problem Solving · Fast Learning · Communication · Adaptability · Visual Thinking · Presentation Skills

LANGUAGES

Arabic: Native | English: Good

AVAILABILITY

Available for internships, training opportunities, and entry-level roles in textile design, creative printing, fashion concept development, repeat pattern design (Dobby, Jacquard, Printing), upholstery design, quality control, and AI-assisted creative design.
